Shamanth V

+91 6361085683 | 2005shamanth@gmail.com | LinkedIn | Kaggle | GitHub | Bengaluru

Professional Summary

Data Scientist and ML Engineer experienced in building AI applications across computer vision, NLP, and time-series analysis, with strong Python, transformer, and competitive ML skills. Award-winning debater and leader of a 1,380+ member society, committed to shipping intelligent systems for real-world impact.

Education

Dayananda Sagar Academy of Technology and Management Sep 2023 – Present
B.E. in Information Science and Engineering **CGPA: 9.11**
Relevant Coursework: Machine Learning, Data Structures, Database Design, Web Development, AI Fundamentals

Indian Institute of Technology Madras (Online Degree) Jul 2023 – Present
B.S. in Data Science and Programming *In Progress*

Technical Skills

- **Languages:** Python and its libraries **Tools:** Google Colab, Jupyter, Kaggle, Git
- **ML/AI:** Deep Learning, Computer Vision, NLP, Transformers, LLMs, Fine-tuning, RAG, LangChain, PyTorch, TensorFlow, Hugging Face, scikit-learn, pandas, NumPy, Streamlit
- **Specialized:** Semantic Segmentation, Time-Series Analysis, Signal Processing, Ensemble Methods, Feature Engineering, Model Evaluation

Projects

Smart MCQ Solver Challenge GitHub
Python · Transformers · Fine-tuning · Ensemble Methods · LLMs
- Ranked 109/1,531 (top 7%) in an AI-based MCQ answering challenge, evaluated on MAP@3.
- Fine-tuned transformer models and combined them with retrieval-augmented context to improve answer quality.
- Built an ensemble that merges model predictions to produce a ranked list of the top-3 most likely answers per question.

Comment Category Prediction GitHub
Python · scikit-learn · NLP · Text Classification
- Ranked 785/2,744 (top 28%) in a multi-class text classification competition, achieving a ROC-AUC of 0.8215.
- Engineered TF-IDF text features and tuned ensemble classifiers with GridSearchCV to improve generalization across categories.

Neonatal Jaundice Detection GitHub
Python · TensorFlow/PyTorch · OpenCV · Medical Imaging
- Building a CNN-based system for non-invasive detection of neonatal jaundice from clinical images of infants, aimed at accessible early screening.
- Completed the literature survey and feature extraction stage; currently developing and evaluating the model pipeline using OpenCV preprocessing.

Leadership & Extracurricular

Secretary, Synapse Society, IIT Madras Jul 2025 – Sep 2026
- Led 20+ events (discussions, expert sessions, quizzes, offline trips) over 12 months, growing membership to 1,380+.
- Expanded flagship festival presence from 1 to 3 concurrent events (Capitol Conclave, Youth Parliament, Samvaad) at Paradox 2026, drawing ∼1,000 registrations.
- Restructured Capitol Conclave into a team debate format (authored proposal and rulebook); drafted society constitution with an 8-department Senate; integrated Adhyay Society and organized 2 cross-society trips (Shimoga, Himachal Pradesh).

Club Head, Brain Mine Club, DSATM Jul 2025 – Jun 2026
- Founded the college's Model United Nations society (Best Delegate win); ran quizzes, debates, and escape-room events for 100+ students and organized 2 large inter-college events.

Other Roles & Achievements
- **Vice Chair, Salesforce Agent Blazer Team, DSATM:** Co-led the Salesforce student community around Agentforce and ecosystem learning.
- **Debate & Quiz:** 1st Debate (VTU Youth Fest 2025, Paradox 2024), 1st Quiz (Paradox 2025), 2nd Debate (Paradox 2025).
- **Youth Parliament Organizer, IIT Madras:** Executed a parliamentary simulation with 200+ participants; MUN delegate with multiple committee recognitions.
- **TEDx DSATM Speaker** (YouTube): Talk "The Dark Secret of Technology" on the ethical and societal costs of technology in warfare.
